Power Up Your Case Preparation

Introducing Primafact 6

Fresh tools for your most productive Case Prep ever

GET MORE DONE WITH PRIMAFACT

Accomplish more with Primafact's powerful new document review and e-brief assembly tools. Get ready faster with case intelligence, discovery notes and focused chronologies anytime you need them.

✓ **Binders Made Better** Powerful search and filter tools and visual content indicators make it easier than ever to identify key materials.

✓ **Review-Friendly Inboxes** Delegate, review & annotate documents as they arrive. Early Case Assignment lets teams capture key details before filing.

✓ **Document Discussions** Communicate key details, ask questions, and receive answers in real-time right in your Primafact Inbox to keep files moving forward, and preserving key details for team review.

✓ **Chronologies & Reports** Get up-to-speed faster than ever with insightful chronologies and discovery out-lines that you can assemble on-demand.

✓ **Annotation Enhancements** Our updated Annotation Form efficiently captures the details you need to assemble chronologies and reports. A wider spectrum of annotation colors and customizable labels make it easier to annotate your Cases precisely.

✓ **E-Briefs Made Easier** Effortlessly assemble court-compliant submissions directly from Primafact, complete with highlights, document and web links and CaseLines-compatible document auto-naming.

✓ **Productivity Tools** More robust Case Templates, with built-in coding and views, make it easy to implement consistent standards across Cases. Use Team Flags to tag documents by content type or for team workflows. Additional efficiencies help your team get more done.

prima*fact*™

Our Most Powerful Productivity Tools

Primafact 6 has everything you need to review documents efficiently, capture key information, and assemble comprehensive e-briefs for your most productive Case Prep ever.

✓ **Efficient Review Starts with Document Inboxes and Discussions**
Primafact's powerful Inbox tools make it easy to centrally manage team review and filing. Assigning Cases to documents before filing means you can easily group documents by Case for more efficient review and annotation right from your Inbox. New document discussions let you efficiently instruct teams and stay on top of feedback and requests.

✓ **Instant Discovery Outlines & Chronologies**
Primafact's reporting enhancements quickly lay bare the strengths, weaknesses and gaps in your case. Create discovery outlines and medical chronologies on-demand to prepare for appearances with less time and effort. Export reports to Word and Outlook for memos and sharing. If you need a closer look, source materials are always one click away.

✓ **Annotation Enhancements Bring Key Details to Light**
Our latest Annotation enhancements offer more visual coding tools, including a dedicated favorability button, plus a wider spectrum of colors and customizable labels, so you can record key details more precisely and consistently – and instantly recognize key content in your Binder. Dedicated Event Date capture makes chronology-building a snap.

✓ **Efficient E-Briefs**
Primafact's powerful new e-brief tools make assembling and uploading submissions to CaseLines and other portals efficient and hassle-free. Use our new Bundle Binders to efficiently publish tabbed PDF document sets. New links connect your reader to cited Primafact pages and online citations. Our new portal upload tool makes uploading to online portals more efficient than ever.

Intake review enhancements ensure timely issue management — and sharp recall when preparing for discovery, mediation and trial.
